

Center Divide Systems

Taking Temperature Control Right Down the Middle

Flexible, reliable, customized temperature control and protection for the most fragile goods.

Randall Center Divide Systems offer flexibility to divide the trailer down the center to create as many as three distinct temperature zones and an ambient area. Dividing the trailer into zones helps protect your bottom line while protecting temperature-sensitive goods during transit.

Durable

Impact-resistant composite, ballistic nylon seals and UHMW skid guards

Efficient

Recessed airflow channels efficiently move air throughout the system

Customized

Standard or custom sized panels configured to meet your requirements

TPO COMPOSITE OPTION

Upgrade! Ultra-durable, impact resistant, recyclable, TPO composite center divide panels are ideal for high-traffic applications where weatherability and durability are crucial.

Exterior

- Recessed airflow channels
- Male/female siderails
- One-piece bottom extrusion
- Ballistic nylon seals
- No catch, recessed hardware

Options

- TPO composite panels (ABS standard)
- Ratchet or hydraulic load bar
- Half bulkheads, including flip-top bulkheads for roll-up doors
- Return air bulkhead
- Air diverter
- 6" or 9" high impact plate
- Last panel with optional aluminum reinforcement

More

- More efficient product staging prior to loading
- More durability over the life of the trailer
- More impact resistance
- More ability to "shorten the load"
- More flexibility to reconfigure
- More ease of maneuverability
- More recyclable
