

ONE STOP FOR EVERYTHING FLEET SAFETY

Driving Safety Forward™
for Today's & Tomorrow's Fleets

Top **Brands**. Latest **Technology**. Professional **Installs**. Stellar **Service**.

Meet the Fleet Safety Company

Today's fleet operators need a strategic partner that brings a new perspective to creating a safe environment. We believe that without safety first, efficiency and productivity aren't possible. We provide a platform that combines deep fleet market know-how, ground-breaking technology & engineering, a commitment to safety, and a 100-year history of innovation.

Better Drivers. Smarter Vehicles. Safer Fleets.

No matter what type of vehicle, we'll help you make it safer – and protect the people around it.

Avoid Crashes

We give drivers better visibility to navigate large vehicles on busy roads and tight spaces.

Protect Workers

We make it easier to safely see, reach, stow, and unload critical equipment to get the job done.

Improve Safety

Reduce the risk of injury to drivers, passengers & pedestrians.

Smart Safety Solutions for Fleets of Every Type

With our broad portfolio of market-leading safety solutions, Safe Fleet continues to innovate and deliver the solutions fleets need to survive and thrive in a changing world – and ensure that drivers, passengers and everyone around them arrive home safely.

BUS & RAIL

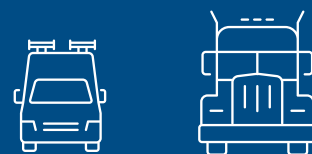

LAW ENFORCEMENT & MILITARY

WASTE & RECYCLING

FIRE & EMS

COMMERCIAL VEHICLE

Safety for First Responders

At the scene or travelling to it we help protect law enforcement officers, EMTs, and firefighters as they ensure public safety.

Law Enforcement

Improve public trust and officer safety with our advanced video capture and digital evidence management solutions. In the office, patrolling the streets, or at court, you can rely on us for secure video capture and evidence management.

BODY CAMERAS

Improve public trust & officer safety with full-shift, auto-trigger video & audio.

IN-CAR VIDEO SYSTEMS

Reliable evidence gathering and simple in-field operation to record pre and post event.

EVIDENCE MANAGEMENT

Quickly find, review, manage, and share video evidence.

AUTOMATIC LICENSE PLATE RECOGNITION

Automatically process license plate numbers to track suspects and alert officers of warrants.

Safety for First Responders

Fire & EMS

Firefighters heading into danger rely on our firefighting equipment and controls for consistent water pressure and flow. At the scene and travelling to it, we help fire trucks and ambulances safely navigate to emergencies — without incident. Need fire protection for an industrial environment? We've got that too.

FIREFIGHTING EQUIPMENT

Valves, nozzles & water cannons to expertly control water flow.

FIRE APPARATUS CONTROLS

Monitor & display critical pump, tank or generator data and deliver precision foam.

INDUSTRIAL FIRE PROTECTION

Equip your facility with a custom fire suppression system.

VIDEO SYSTEMS

Give drivers a better view around the vehicle and save video for incident investigation.

ROLL-UP DOORS & CARGO ACCESS

Stow fire equipment securely and access it safely and easily at the roadway.

SCENE & WORK AREA LIGHTING

Improve visibility & deliver safer work zones with powerful LED lighting.

Safety for Bus & Rail

Whether you're a school transporter, transit agency or motorcoach operator, the safety of drivers, passengers and pedestrians is your first priority. We bring you the video, fleet management and advanced safety technology it takes to manage onboard safety, ensure safe driving practices, prevent collisions, and reduce the risk of injury to pedestrians.

Safety for Bus & Rail

School Bus

Every child's safety is worth protecting. That's why everything we do – from video & telematics to route planning, tracking and navigation, stop arms, cross arms, and escape hatches – helps you make their journey safer.

CAMERA SYSTEMS

Ensure student safety with on-board cameras.

STUDENT PROTECTION TECH

Prevent injuries by proactively monitoring and alerting students to dangers from passing motorists

NAVIGATION & STUDENT RIDERSHIP

Keep drivers on route and ensure students get on and off at the right stop.

FLEET MANAGEMENT

Track buses, plan safer routes, and manage driver performance.

SAFETY ALERTS & SIGNAGE

Capture motorist attention to prevent accidents when loading and unloading.

COLLISION AVOIDANCE SYSTEMS

Eliminate blind spots that are the leading cause of accidents.

Transit

We make public transit safer for passengers and drivers—inside and out - helping reduce fraudulent claims, deter crime and vandalism, protect drivers, and reduce collisions.

VIDEO SURVEILLANCE

Reduce false claims and deter crime and vandalism with verifiable video evidence.

FLEET MANAGEMENT

Track buses in real-time and tap into live video in case of emergencies.

COLLISION PREVENTION

Eliminate blind spots that are the leading cause of accidents.

SAFETY & CONVENIENCE FEATURES

Make the ride safer and more enjoyable with lighting, parcel racks and escape hatches.

PRE/POST TRIP INSPECTION

Automate inspection to flag issues and improve repair & maintenance turnaround.

INFOTAINMENT SYSTEMS

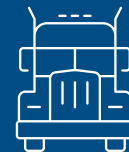

Keep passengers informed and generate ad revenue.

Safety for Commercial Vehicles

From dispatch to delivery, depot to job site, we help you safely get to the job site, complete your route, secure cargo, maintain food temps, and make sure slips, trips, and falls don't ruin your day or your reputation. Whether it's giving drivers a better view, saving your back unloading a ladder for the job, covering your payload without leaving the cab, or keeping waste collection on track and on time, we have the tools you need to keep everyone safer and more productive.

Vocational Fleets

Customized safety solutions not only protect workers and the public, but make it faster and easier to reach, unload, and upload critical equipment or cover your payload quickly and safely.

FLEET CAMERAS

Ensure safe driving practices and reduce accidents.

COLLISION AVOIDANCE SYSTEMS

Eliminate blind spots that are the leading cause of accidents.

LADDER RACKS

Safely transport and load ladders without back strain.

VAN SHELVING & STORAGE

Safely secure parts with ready access at the job site.

TARP SYSTEMS

Keep your payload secure and drivers safer.

VEHICLE STEPS

Prevent slips with self-cleaning, customized steps and running boards.

SAFETY LIGHTING

See and be seen on and around the vehicle with LED lighting.

COMPARTMENT ACCESS

Keep workers safe at roadside with roll-up doors and cargo covers.

Food Service & Last Mile Delivery

Whether your rig is big or small, you need smarter safety options. From the long haul to the final mile, we'll help you protect what matters most – your employees and your inventory.

FLEET CAMERAS

Ensure safe driving practices and reduce accidents.

COLLISION AVOIDANCE SYSTEMS

Eliminate blind spots that are the leading cause of accidents.

TEMP CONTROL

Keep food at the right temp and protected from dust & weather during deliveries.

SHELVING & PARTITIONS

Keep cargo safe, secure and organized for last mile delivery.

RAMPS, STEPS & PLATFORMS

Keep drivers moving safely & efficiently during deliveries.

Waste & Recycling

Keep sanitation workers and everyone around them safe while you improve productivity, performance, and customer satisfaction. This end-to-end waste collection management system helps waste haulers reduce collection costs and improve service.

FLEET CAMERAS

Ensure safe driving practices and reduce accidents.

FLEET TRACKING

Track vehicle activity and route progress to supervise collection.

ROUTING SYSTEM

Optimize routes, deliver for efficiency and monitor service quality in real-time.

IN-CAB DISPLAY

Route instructions and camera views improve driver safety & accountability.

WASTEAPP

Reduce drive times and fuel consumption while managing driver activities.

VEHICLE STEPS

Prevent slips with self-cleaning, customized steps and running boards.

TARP SYSTEMS

Cover roll-off trailers or dump truck loads safely without leaving the cab.

SAFETY DASHBOARD

Track incidents and view driver behavior to spot unsafe driving practices.

Saving Lives with Advanced Technology.

Our Advanced Technology Group is using advanced algorithms, deep learning, and artificial intelligence (AI) to develop advanced sensing technologies to help reduce the risk of injury to drivers, passengers & everyone around them.

PREDICTIVE STOP ARM™

We use radar and predictive analytics to monitor oncoming traffic and warn students it may not be safe to cross. AI and deep learning reduce false alerts and minimize distraction.

THRUVIEW ASSIST™

Exterior cameras give drivers a clear view of what's behind A/B pillar blind spots to reduce pedestrian accidents.

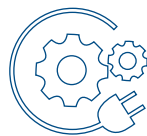

AUTOMATIC BUS LANE ENFORCEMENT (ABLE) { *Product in development* }

Provides automatic detection of bus lane violations, captures license plate photos and video of vehicle infringement, and delivers evidence to a ticketing system.

Stellar Services. Professional Installs. Sound Advice.

Through our network of trained installers and service centers across the country, we'll make sure any safety solution you buy from us is installed right and serviced regularly. Plus, our safety experts can recommend the best solution to solve your biggest fleet safety problems.

PROJECT MANAGEMENT

From ladder racks to vehicle cameras we'll manage the entire upfit & install process.

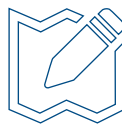

PROFESSIONAL INSTALLS

Benefit from our in-depth knowledge and experience across a range of fleet vehicles.

SUPPORT

Online or on the phone we'll help you troubleshoot any equipment issue.

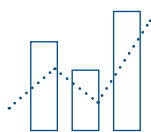

SYSTEM DESIGN

Need a custom solution? Our engineers can help.

SITE SURVEYS

Our Certified Wireless Network Engineers plan for strong WiFi throughout the yard.

PREVENTATIVE MAINTENANCE

Regular system health checks and safety equipment servicing for the life of your vehicle.

PARTS & REPLACEMENT

Need a replacement part or new tarp, we can handle that too.

TOP BRANDS. ONE INTEGRATED PLATFORM.

At Safe Fleet, we bring together best-in-class brands to give fleets of every type one-stop access to customized, integrated and intelligent safety solutions. So you can get the job done right, and stay safe doing it.
