

Driver Vehicle Inspection Tool

Safe Fleet Vehicle Inspection™

Manage inspections, maintenance, vehicle location, driver management and automated paper forms

- Eliminate Paper Inspection Forms
- Supports any Required Inspection Type
- Interfaces with Legacy Systems

Automate inspections for enhanced maintenance and operational efficiency.

System Flexibility

Supports any required inspection type (pre/post-trip, driver swap, maintenance, facilities, other customer assets that require periodic inspection).

Hardware Agnostic

Designed for real-world use and compatible for use on the Safe Fleet Mobile Data Terminal (MDT), Android Tablet, or Android Smartphone.

Inspection Assurance

No need to track items using RFID Tags. Safe Fleet Vehicle Inspection uses GPS to track the vehicle operator walking around the vehicle and records the time when each item is inspected.

Driving Safety Forward™

Automate pre/post-trip and maintenance inspections

Easy to Use

Download Safe Fleet Vehicle Inspection App from the Google Play Store. The interface is simple to use and is easily customizable to fit your specific needs.

Low Cost

Safe Fleet Vehicle Inspection is \$0.50 a day per vehicle; less than the cost of paper forms. Digital inspection data is instantly available for maintenance, auditing and measuring results.

Templates

Inspection templates can be created or modified by the user at any time for no cost. Changes push to the device automatically in real-time.

Forms

End users can create forms at will to automate specific data collection demands in critical circumstances such as incident/accident reporting.

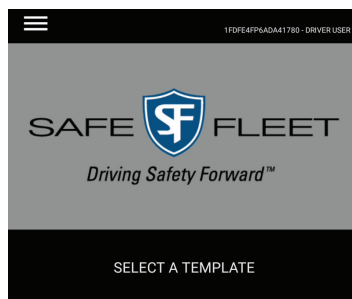

Own Your Own Data

Safe Fleet Vehicle Inspection, unlike other systems ensures you own your data and have direct access to your data for analytic purposes at no additional cost.

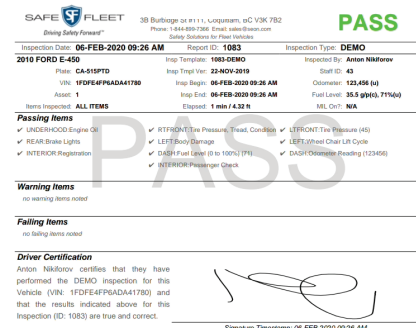

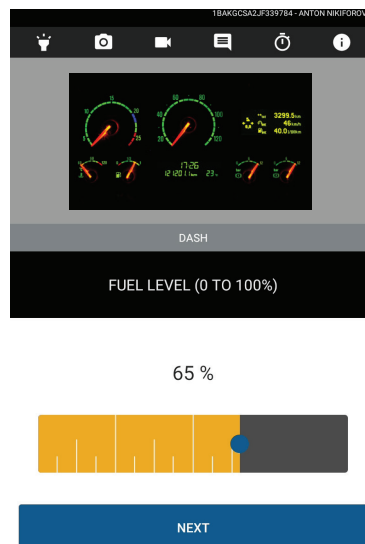

Customizable

We can set up your inspections for you, or you can make changes yourself in real-time, at no additional cost. Changes to drivers, vehicles or templates sync to devices in minutes.
