

# Upfit Your Fleet Vehicles Anywhere In The U.S.

Specializing in Mobile On-Site Field Installation

## AMFS Installers Are The Experts When It Comes To 12-Volt Aftermarket Equipment

American Mobile Fleet Services, a Safe Fleet Brand, works with other Safe Fleet brands such as Rear View Safety, American Van and Prime Design to upfit fleets of all sizes with products and technologies that increase safety and improve performance.

**We specialize in installing  
and servicing a diverse  
range of specialty products**

- Backup Camera and Sensor Safety Systems
- GPS/Telematics Systems
- Decals/Window Tint
- Mechanical Upfits

**With over 1,000 expertly-trained network installers, AMFS efficiently provides coverage to any location within the United States.**

AMFS supports effective on site execution with world-class project managers and regional lead technicians who oversee the scheduling, logistics, material shipments and communication that are critical to successful and timely installations.

Project tracking is performed by our Advanced Mobile On Site Documentation System (AMODS), removing the time-consuming task of pursuing manual status updates and providing clients with full transparency of the installation process, as well as ensuring quality control.
