- Create work orders
- Track repairs
- Schedule inspections

#### Minimize Vehicle Downtime

Streamline the vehicle maintenance process with automated issue identification, parts ordering and service scheduling. Automate your vehicle maintenance for increased fleet service efficiency and vehicle uptime.

#### Simplify Job Assignments

Ensure maintenance teams have one source for accessing vehicle issues, work orders and repair information.

### Reduce Maintenance Costs

Automating the maintenance process results in quicker, more responsive repair turn arounds reducing overall operational costs. Proactively repairing vehicle issues also helps reduce long-term higher cost repairs.

Driving Safety Forward™

Safe Fleet – Fleet Maintenance is a web-based application that allows you to manage your vehicle maintenance faster and more efficiently. No software needs to be installed. You can create work orders, track repairs, and schedule inspections anytime from anywhere!

#### Automatic Maintenance Scheduling

Create preventive maintenance work orders automatically or daily work order to be tracked by type, number, date, priority, and location. Assign work orders to members of your team and get automated notifications on screen or by email when the work is completed. Send an invoice from the same application for faster billing.

#### **View Maintenance Work History**

Make better decisions by checking the history of maintenance work. Monitor increases in wear or neglect; analyze labor time and costs to adjust your future plans, schedule, and parts purchases.

#### **Accurate Parts Inventory**

Easily track the use of multiple parts when maintenance work is performed. You can create complete reports on what is left in stock or check what parts are assigned to individual work orders.

#### Improve Efficiency of Maintenance Operations

Monitor efficiency of your maintenance operations with comprehensive builtin reports even on the go! Select from one of the available reporting options: Vehicles, Work Orders, Technician Time, Parts Usage, or Invoice Summary to help identify time and labor savings as well as potential issues.
