

Safe Fleet® FOCUS® X3™

Full-Shift, Cellular-Connected Body Camera | FirstNet®,
Frontline® & T-Priority™ Ready

The FOCUS X3 offers powerful cellular live streaming, fast video uploads, and a 14-hour battery life. With auto lighting, image stabilization, audio-only mode, and instant alerts, it ensures clear, controlled recording in any setting.

Easily manage your body camera features with the FOCUS View BWC app – available on Windows PCs, tablets, and Android devices.

LTE CONNECTIVITY FEATURES:

Cellular or Wi-Fi and Priority Evidence Uploads

Upload video via cellular or Wi-Fi based on need. Critical footage is prioritized for cellular upload, while non-essential data is deferred to Wi-Fi or docked transfer – saving costs. Powered by Safe Fleet Smart Cloud on Microsoft Azure® Government, all uploads are secure and automatic. Compatible with AT&T FirstNet®, Verizon Frontline®, and T-Priority™ for prioritized public safety communications.

Live Streaming

Empowers command staff to view incidents live, enabling faster, more informed decisions during critical, active/tactical, high-stakes events.

Remote Body Camera File Retrieval

Access log files for fast issue diagnosis and lock FailSafe recordings to preserve key evidence – speeding investigations and protecting footage.

Remote Activation Ready

Can be configured to automatically activate based on vehicle sensor inputs – such as light bar, siren, or door triggers – and can also initiate recording on the in-car system.

DEVICE FEATURES :

Improved Audio

Captures high-quality audio with built-in noise reduction, ensuring clear recordings in dynamic environments.

Magnetic Charging and Data Connector

Features a breakaway magnetic connector for effortless charging and secure evidence transfer, combining convenience with durability in the field.

Full Shift Recording

Delivers up to 14 hours of full-shift battery life, with built-in preevent buffering, GPS, Wi-Fi, and Bluetooth activation for continuous performance and situational awareness.*

Device Health

Receive proactive maintenance alerts to keep cameras fully operational.

Holster Activation Integration

Automatically activates your body camera when a firearm, taser, or pepper spray is unholstered – capturing critical moments and ensuring no evidence is missed.

Enhanced Security and Storage Encryption

X.509 certificate-based authentication in order to grant access to cloud services and encryption with the AES-256 encryption standard.

Intuitive Camera Alerts

Provides vibration, audible, and LED alerts for real-time status updates. An easy-to-read display shows battery life, wireless connectivity, and storage status, ensuring users stay informed at a glance.

In-Car Device Integration

Integrates with Safe Fleet in-car video systems, mobile devices, and laptops for seamless viewing, tagging, and uploading. Body camera and in-car footage can be uploaded together via Wi-Fi or cellular modem. With Nexus, related recordings and metadata from both devices are automatically organized into a single evidence folder – reducing the need for manual uploads.

* Cellular uploads may reduce battery life, depending on activity levels.

Safe Fleet® FOCUS® X3™

Full-Shift, Cellular-Connected Body Camera | FirstNet®, Frontline® & T-Priority™ Ready

System	
Dimensions	4.1" x 1.2" x 2.7" (104mm x 32mm x 67mm)
Weight	9.1oz (258g)
Storage Capacity	128GB
Operating Temp	-4°F to 131°F (-20°C to 55°C)
FOV (Field of View)	140° Horizontal (Main Camera)* 87° Horizontal (Clip-Cam) *
Lux	0.1 Lux (Main Camera) 0 Lux (Clip-Cam)
Indicators	LED/Audible/Vibration
Programmable Button	Snapshot/Bookmark/Tag/Audio Recording
IP Rating	IP67
Water Resistance	Protected against the effects of temporary immersion between 15cm and 1m. Duration of test 30 minutes
Military Standard	MIL-STD-810G
Dock Interface	Rugged POGO
Battery	4500mAh Industrial Wide-temperature Li-ion
MPU	6 Axis Motion Processing Unit
Display	FSTN LCD Sunlight Legible
Charge Time	5 hr quick charge with integrated battery conditioning
Bitrate	Up to 12 Mbps in H.264 Up to 6 Mbps in H.265
Audio	Audio signal data sample rate 44.1kHz / 16bits
Audio Format	AAC
Encryption	AES-256 volume encryption

*With LDC (Lens Distortion Correction) and EIS (Electronic Image Stabilization) disabled.

Communication	
Bluetooth	5.0
Wi-Fi	IEEE 802.11ac/a/b/g/n
GPS	On-board, integrated GNSS module
Wi-Fi Security	WPA-Enterprise, WPA2
NAC compliant 802.11x	Supported
Automatic Wi-Fi Upload	Yes
Recording	
Video Resolution	1440P/1080P/720P/480P
Video Format	MPEG-4 container with H.264 or H.265 codec
Video Frame Rate	Up to 60 fps
Continuous Record Time	Up to 14 hours
Image Stabilization	Onboard EIS
Pre-record Time	Up to 120s (Max) at 720p/30fps Standard Quality (H.264) Up to 120s (Max) at 720p/30fps High Quality (H.264) Up to 120s (Max) at 1080p/30fps Standard Quality (H.265) Up to 120s (Max) at 1080p/30fps High Quality (H.265)
Other	
Triggers	Remote Bluetooth Activation (bidirectional between Body Cameras and In-car Video) • Holster Sensor activation • FOCUS View apps • Accelerometer • Physical Buttons
Evidence Review and Upload	FOCUS View apps ICV (In-Car Video) Various Back-Offices
Real Time Clock	Yes, with dedicated battery backup & GPS synchronization
