

# NEXUS™ CLOUD STORAGE

Easy-to-Use, Secure and Future-Proof  
Secure Cloud Storage for all your video needs

What if...

... you could access your digital evidence just like **you access your files in Dropbox**

And just like using Dropbox, you'd benefit from features that\*:

- Save you time
- Improve your productivity
- Help you collaborate with ease
- Allow you to access evidence from anywhere

\*without the burden of managing your platform!

## Introducing NEXUS CLOUD STORAGE

### Safe Fleet NEXUS Cloud Storage enables a fleet to manage their evidence in the Cloud.

- **Upload and save** your videos to Cloud Storage (via cellular data or Wi-Fi)
- Access your videos from **anywhere** on any device
- Be **independent** from your local network "health status"

What will NEXUS Cloud Storage Bring to You

## Benefits

**Security**

Your videos will be stored in the most secure Cloud space in the world thanks to our partnership with Microsoft Azure Gov.

**Reliability**

All Nexus cloud evidence is geo-redundant (2 copies of the evidence are stored in 2 different data centers)

**Flexibility**

Whether you want to use cellular data for upload, or Wi-Fi, or both, we can easily customize the solution based on your needs. (no one size fits all)

**Experience**

We have been in this business for more than 20 years continuously improving our offering.

## Cloud Computing Also Delivers...

				
<b>Lower Operating Costs</b>	<b>Unparalleled Security</b>	<b>Scalability at a Second's Notice</b>	<b>Enhanced Productivity</b>	<b>You'll Never Get Left Behind</b>
Cloud solutions can save money by consolidating IT resources, reducing system downtime, and simplifying budgets.	Microsoft Azure Government is unrivalled at providing IT security. Your evidence is subject to continuous enhancements, updates, and patches.	Storage and computing capacity can be increased on-the-fly, and without having to retire your existing platform.	Evidence can be uploaded from anywhere, over cellular modems or hotspots. Administration and video access/sharing becomes available wherever users can get an Internet connection, breaking the tether that forces users to be on the same network as the vehicle in question.	You won't need to budget for/or manage your system's continual security and integrity updates. Your system will automatically update to the latest and greatest in real time – as updates become available.

## THE KEY DRIVERS FOR NEXUS CLOUD STORAGE

**You'll gain:**

**Increased security, reliability and availability with Microsoft Azure Government:**

- Originally designed for US Government, including the Department of Defense and the FBI
- Includes Criminal Justice Information Standards (CJIS) for handling evidence
- Verified by third-party auditors (SOC 2 and ISO20770)

**You can have your data the way you want it**

- Fully from the cloud
- Or from a combination of on-premise and cloud storage

Good things happen when your files live here.
