

Safe Fleet® Holster Activation™

Focus on Safety and Capturing Evidence Simultaneously

Automatically activate your body camera the moment you unholster your firearm, taser or pepper-spray canister and ensure you never miss a single second of evidence.

- Mountable on most tactical and duty holsters
- Seamless experience with no impact to holster feel or motion
- Flexible configurations for officer-assigned, pooling or one-to-many activations

Safety and evidence capture without compromise

Synchronized Performance

Detects whether a firearm or other law enforcement device has been removed from or inserted into a holster (with support for up to 5 sensors) for greater officer efficiency, safety and performance

Secure Communications

Event data is transmitted via fully secured, AES encrypted Bluetooth Smart®, wireless technology to any Bluetooth enabled data hub or device

Enhanced Functionality

The bi-directional wireless activation feature enables automatic recording on in-car video and body camera devices
