Better Drivers. Smarter Vehicles. Safer Fleets.

Create more value for your end customers by partnering with the **fastest growing fleet safety company.**

Enhance Efficiency Real action in real-time.

Give your customers optimized fleet routing and dispatch solutions with actionable reporting and remote management.

Improve Safety Enhance fleet driver experience.

Keep your fleet and drivers safe with scalable and fully integrated onboard computing camera solutions.

Reduce Costs Increase fleet profitability with telematics.

Using telematics data, your customers can identify inefficiencies. Aggressive driving, speeding, and extended idling reduce fuel efficiency and cut into profit margins.

Bring Value To Your Customers

Give customers the confidence of choosing the

#1 **MOBILE VIDEO SUPPLIER**
IN THE AMERICAS

Access the power of

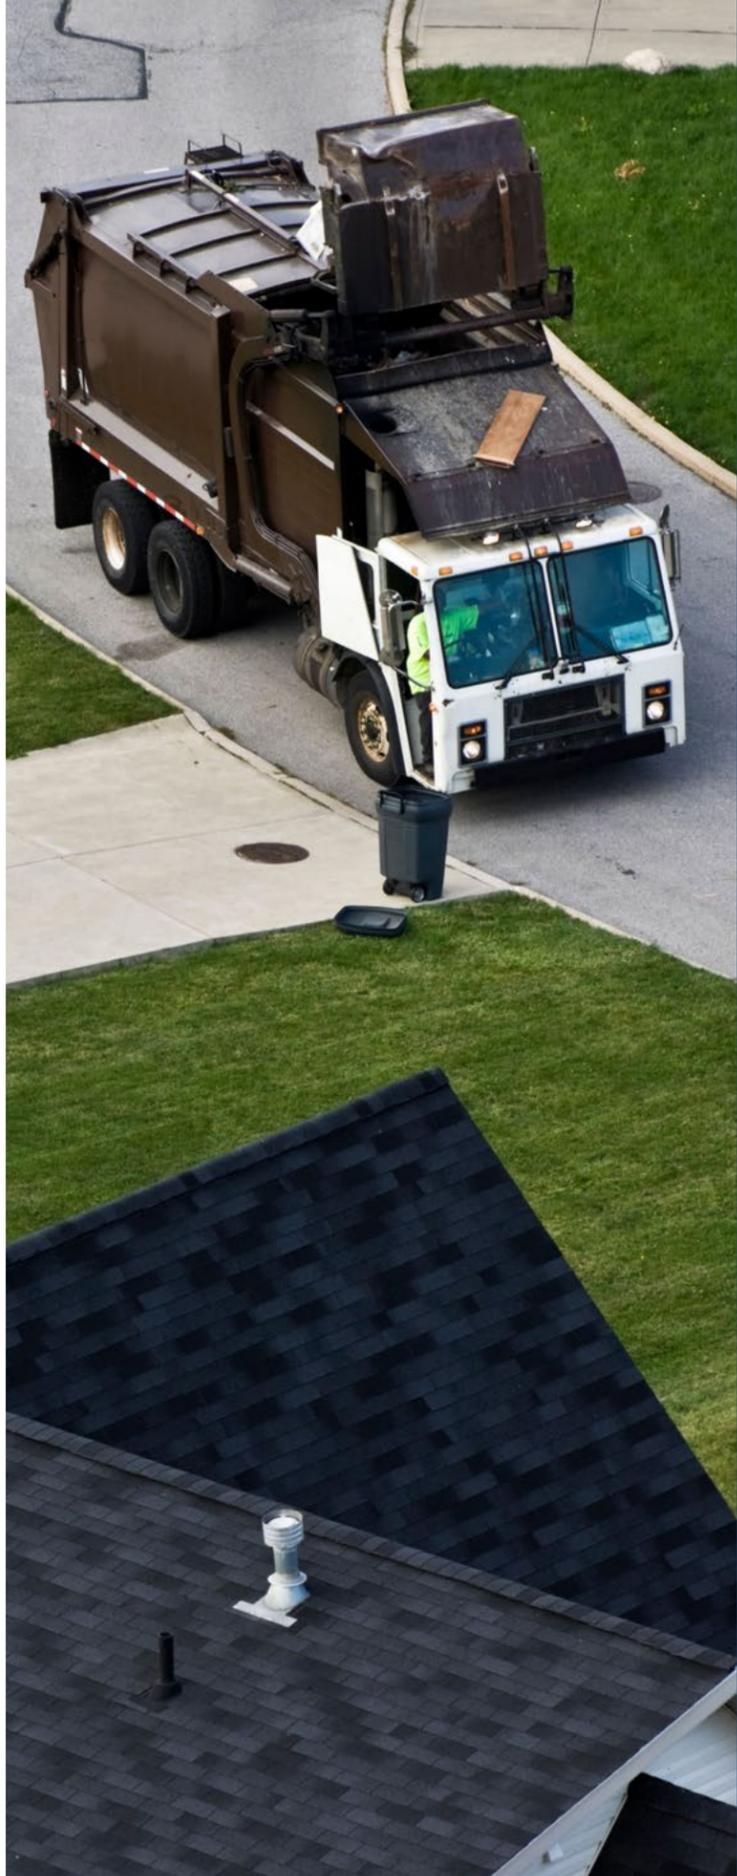

25+ 
BEST-IN-CLASS
SAFETY BRANDS

Help Fleet Managers Improve Operations & Increase Productivity

Seamlessly integrate onboarding computing solutions and FleetLink™ applications into your customers' key workflows, including driver safety, maintenance, dispatch and service verification.

Create Value With Asset Reliability

As your fleet technology asset management partner, you'll get continuity of technical support from our team of experts. This makes sure the equipment your customers have invested in runs as it's expected to, ensuring optimal performance at all times.

Customize Your Fleet Management Solutions

Fleet Cameras

Ensure safe driving practices, reduce accidents, resolve incidents and provide service verification with up to 8 cameras. Record video footage through our in-cab smart display for a comprehensive view of exactly what happened.

Fleet Tracking

Track vehicle activity and route progress to supervise collection. The on-board computing solution integrates GPS-based location tracking, mobile connectivity, engine control module (ECM) data, and support for multiple cameras and FleetLink back-office applications, increasing asset and work performance.

In-Cab Display

Provide drivers a best-in-class experience with a 10" onboard computer that operates the FleetLink WasteApp™. A durable and sustainable solution that provides the driver with a bi-directional communication interface, dynamic routing with driving directions, 360 camera views, and the ability to automate service verification, route activities, and exceptions to improve both driver performance and safety.

Routing System

Optimize routes for efficiency and monitor service quality in real-time. Dispatchers can send drivers updates, track progress and re-route vehicles for enhanced response to events as they occur.

WasteApp™

Dynamically dispatch routes and work orders while gathering real-time service verification and business intelligence from up to 16 peripheral inputs. Give your drivers and supervisors complete route, truck and driver activity transparency. Improve safety and efficiency, increase productivity, reduce miles traveled and fuel consumption.

Safety Dashboard

Track incidents, view live and archived video, static fleet images and driver and collection activity for safety insight and coach safe driving practices.

Partnering with Safe Fleet

When you choose Safe Fleet Waste & Recycling as your partner, you are choosing to benefit from the wealth of cross-vertical knowledge that exists within the Safe Fleet organization. Our commitment to safety can be traced back over 100 years.

You don't just get to benefit from purchasing a product from a specialized provider. With Safe fleet, you are gaining access to the level of sophisticated security practices required in law enforcement, the predictive analytics that are being utilized to resolve safety issues in the school bus industry and the level of intelligence that is being used to address today's waste and recycling management needs. At Safe Fleet we continue to innovate and lead, delivering the smart solutions fleets will need to survive and thrive in a changing world. We are redefining what fleet safety means with one-stop access to customized, integrated and intelligent solutions that answer today's safety needs and anticipate tomorrow's challenges. By making fleets smarter, we make them safer. And without safety first, efficiency and productivity are not even options.
