## Monitor Drivers & Ease Privacy Concerns

Watch For Distracted Driving  
Without Exposing Driver Identity

### AI-Powered Driver Camera

Detects and gives alerts for sleeping, drowsiness, distracted-driving, and phone-usage before uploading to cloud, while road-facing camera records front view

### Real-Time Capabilities

Use its real-time alerts, and driver-scoring capabilities to support training, boost productivity, coaching, and safe-driving initiatives

### Multi-Level Privacy Option

Offers blurring or total blackout options that hide driver identity in incident event footage

### Facial Recognition Software

Automatically identifies drivers and tags them to their routes and vehicles

### External Events

Detects and alerts drivers of sudden braking, excessive acceleration, and harsh cornering, with all events recorded and uploaded to cloud

### Cloud Storage

Incident video and metadata are auto-uploaded to cloud and are used to exonerate drivers

### Emergency Aid

Features an easily accessible panic button
