

Safe Fleet® Evidence Manager™

Media Player and Surveillance Utility

Safe Fleet Evidence Manager is a Windows application used to view video, export evidence files, maintain recorders and interact with the Safe Fleet recording system in real-time.

Simplified accessing and viewing of video. Allows for search by incident, alarm, date and time or even GPS location. Access key details about on-board events or pinpoint the exact time and location a passenger exited the bus.

License Free

Playback software for proprietary videos is easily provided to 3rd parties such as legal representatives and law enforcement

Easy Search

Events are independently named including date and time for easy search and identification

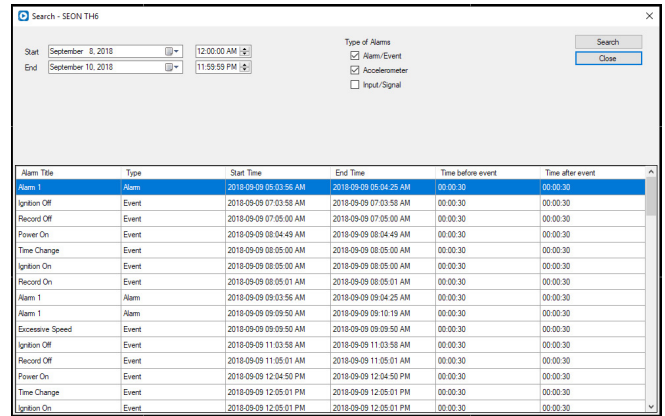

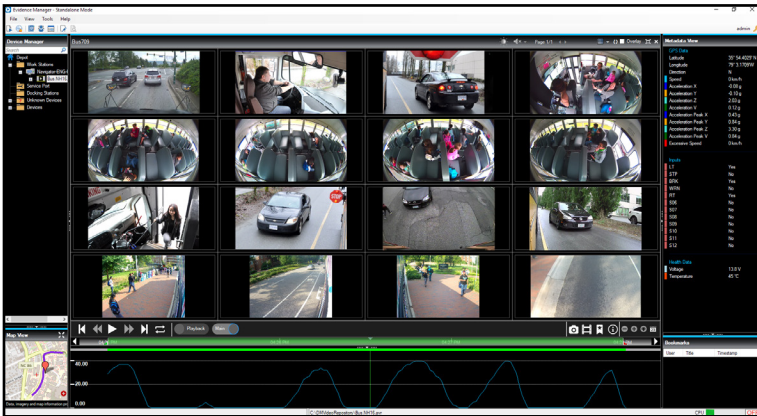

Remote Viewing

On-board wireless functionality for remote viewing of live and recorded video and system health and diagnostics

Safe Fleet® Evidence Manager™

Media Player and Surveillance Utility

Key Features:

Multiple Views

View up to 16 channels simultaneously.

Simple Video Navigation

Easy-to-use play, forward & rewind buttons and timeline with zoom and scroll bar.

Map Vehicle Waypoints and Speed

Display exact vehicle location and speed synchronized with video playback.

Event/Alarm/Telemetry Search

Search video by alarms, speed, GPS location, hard braking/acceleration, or date/time.

Exporting Options

Export media files in proprietary (secure) or open formats. Optionally embed the player for convenient playback.

Timeline Navigation

Easily navigate video by clicking on the timeline to jump to a specific event or time.

Flexible Stream Playback

Choose your preferred quality by toggling between the primary and secondary video stream.

Static Redaction

Upgrade to Dynamic Redaction and Automatic Face Detection via an add-on license.

Enhanced Security

Single sign-on authentication available as an option.
