

SAFE FLEET NEXUS VIDEO MANAGEMENT

Easy-to-Use, Secure and Future-Proof
Secure Cloud Storage for all your video needs

Leverage the power of safe Cloud Storage. Easy. Safe. Accessible.

And benefit from features that*:

- Maximize your data security
- Save you time
- Improve your productivity
- Help you collaborate with ease
- Allow you to access evidence from anywhere

*without the burden of managing your platform!

Introducing SAFE FLEET NEXUS VIDEO MANAGEMENT

Safe Fleet Nexus Video Management enables fleets to manage their evidence in the Cloud.

- **Upload and save** your videos to Cloud Storage (via cellular data or Wi-Fi)
- Access your videos from **anywhere** on any device
- Be **independent** from your local network

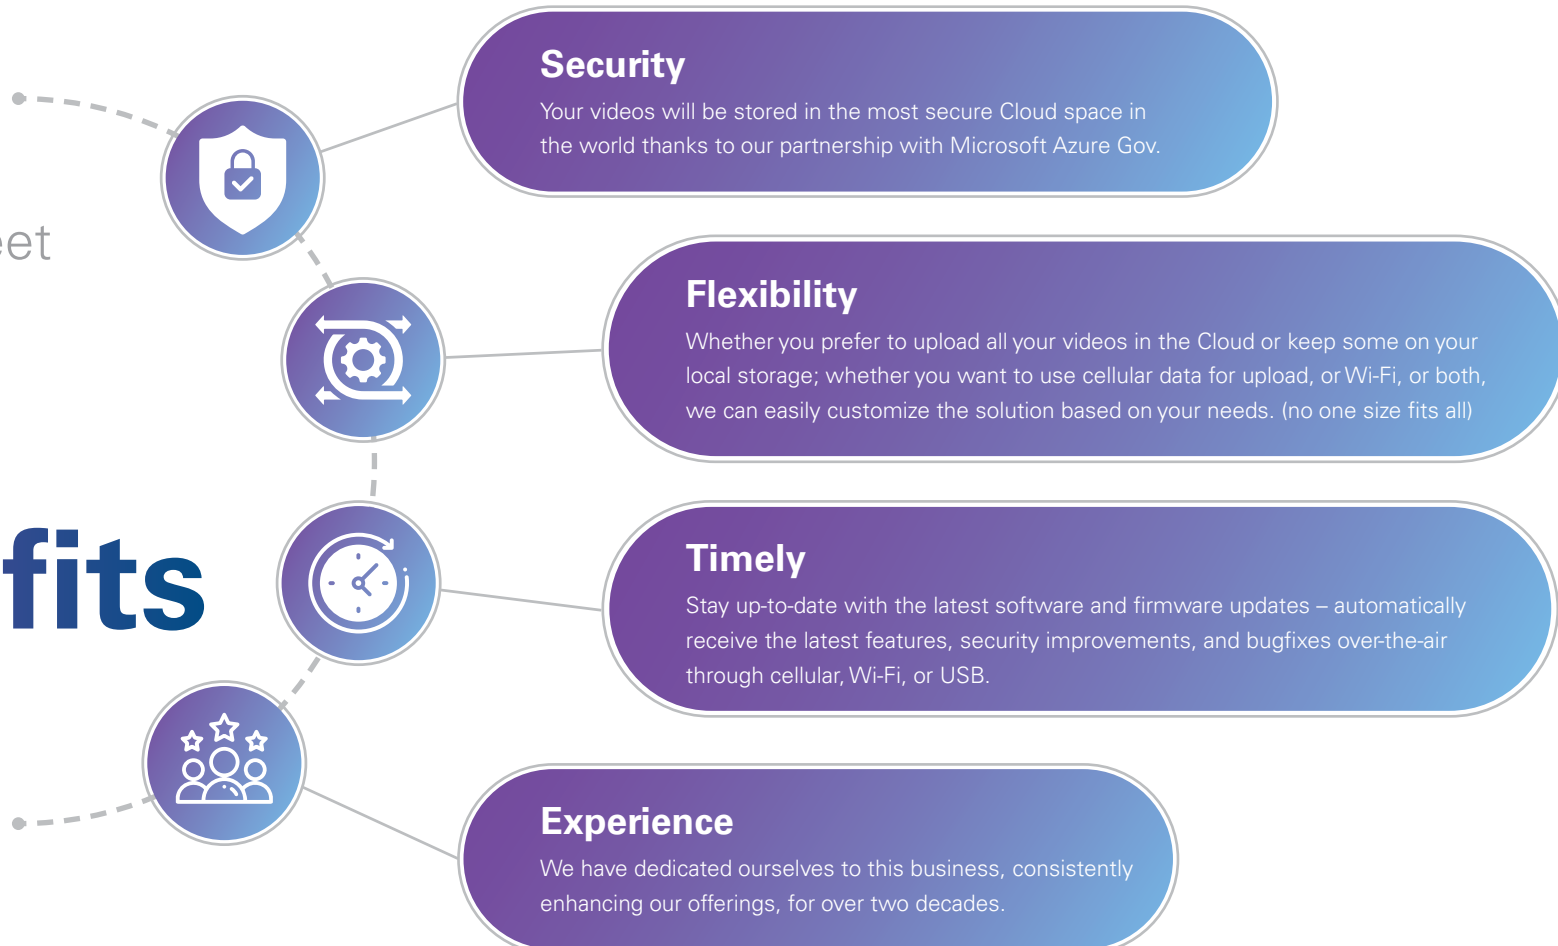

Gain the advantage of having your data secured by industry best practices through our partnership with Microsoft Azure Government:

- Originally designed for US Government, including the Department of Defense and the FBI
- Includes Criminal Justice Information Standards (CJIS) for handling evidence
- Verified by third-party auditors (SOC 2 Type 2 and ISO 27001)

What Safe Fleet Nexus Video Management Brings to You

Benefits

Cloud Computing Also Delivers...

Lower Operating Costs

Cloud solutions can save money by consolidating IT resources, reducing system downtime, and simplifying budgets.

Unparalleled Security

Microsoft Azure Government is unrivalled at providing IT security. Your evidence is subject to continuous enhancements, updates, and patches.

Scalability at a Second's Notice

Storage and computing capacity can be increased on-the-fly, and without having to retire your existing platform.

Enhanced Productivity

Evidence videos can be uploaded from anywhere, over cellular modems or hotspots. Administration and video access/sharing becomes available wherever users can get an Internet connection, breaking the tether that forces users to be on the same network as the vehicle in question.

You'll Never Get Left Behind

You won't need to budget for/or manage your system's continual security and integrity updates. Your system will automatically update to the latest and greatest in real time – as updates become available.

THE KEY DRIVERS FOR NEXUS VIDEO MANAGEMENT

You'll gain:

Increased security, reliability and availability with Microsoft Azure Government (SOC 2 Type 2 and ISO 27001).

You are no longer tied to any network:

Gain increased insights across multiple fleets with ease.

Get more done:

Free valuable resources up for other critical tasks.

Good things happen when your videos live here.
