# Safe Fleet® Nexus™

Scalable, cloud-based, multi-site, multi-user, law enforcement evidence management software

Digital evidence management platform purpose-built to put the agency in the driver's seat. Scaleable, enterprise software that works *with and for* law enforcement agencies of any size.

Advance your evidence management capabilities without disrupting your operations

Ditch the typical 'all or nothing' approach to evidence management and gain the security and reliability of enterprise software without the usual data, flexibility and useability constraints. Safe Fleet Nexus evidence sofware delivers distributed and heavily integrated evidence management workflows: real-world logic, minimized operational disruption and maximum implementation versatility.

Broad Range of Capabilities

Modern, scaleable, secure and robust platform for use with Safe Fleet in-car and body camera systems.

Real-World Workflows

Nexus software was developed based on real-world law enforcement usage and aligns with the tested and proven workflows of today's agencies.
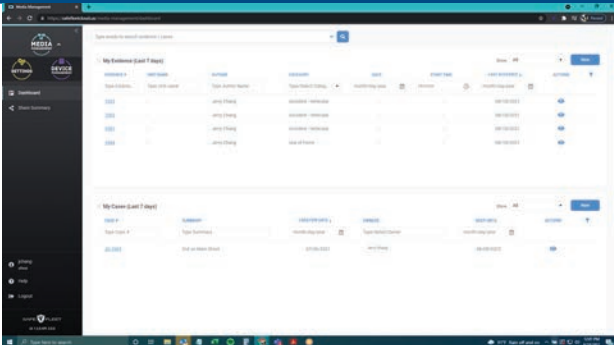

Inherent Reliability

Redundancy and realiability are inherently built into every Nexus system at no extra charge, regardless the size of agency or size of system.

Safe Fleet® Nexus™

Scalable, cloud-based or hybrid, multi-site, multi-user, law enforcement evidence management software

Media Dashboard

Evidence Search Window

> **Flexible and Adaptable**
>
> Pick the implementation that works best for your needs today and migrate as your needs evolve.

> **Non-Disruptive Migration**
>
> Avoid the 'all or nothing' implementation and move your data to the cloud on your own terms with the least amount of disruption to your agency.

> **Plan to your Budget**
>
> Implementations can also map to your budget. Bring the data from your new devices to the cloud today while keeping operations local on your existing devices or any similar budget-friendly variation.

> **Ease into Infastructure Changes**
>
> If your agency hasn't traditionally uploaded all your content to the cloud, a full cloud migration may result in a quadrupling of your monthly bandwidth usage. Plan ahead and ease into migration and infrastructure requirements with a phased approach.

> **Benefit from an Open Platform**
>
> All Nexus metadata is in an industry-standard format. Manage and categorize data for easy exporting and seamless reporting.

> **Avoid Proprietary Codecs**
>
> All Nexus video and metadata is in a readable non-proprietary format. The data is encrypted for your use, but it's your data and you can do what you want with it without restrictive limitations.

Safe Fleet Nexus:

Your decision can be based on what really matters to your operation.

Benefit from a cloud-based, hosted platform - and the lowest cost to integrate with your existing corporate network.
