

School Bus Hub

School Bus Information and Parent Notification App

Ensure parents and students have the latest bus schedule information – receive real-time bus arrival notifications.

- Streamline schedule change communications
- Ensure immediate parent access to relevant information
- Reduce staff administration efforts

Distribute real-time bus arrival information to parents according to district preferences through a secure online App.

Reduce Bus Schedule Inquiries

Decrease number of phone calls from parents inquiring about bus locations and schedule changes.

Simplify Bus Route Communications

Easily notify parents about route and schedule changes with instant online updates.

Reduce Team Workload

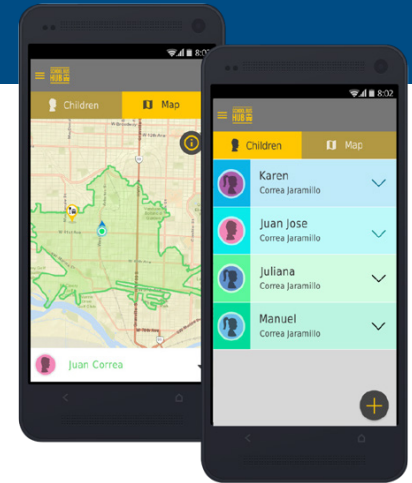

Self-serve online access to bus schedule information to free up transportation staff for other essential work.

Real-time bus arrival notifications from a secure, online App

Additional Benefits for Administrators:

Easily General Reports – Know how many notifications have been issued, whether buses were on time and how many parents accessed information in minutes.

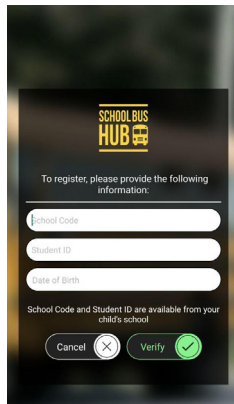

View Multiple Students/Stops – See real-time bus arrival information for one or more students/stops.

How it works

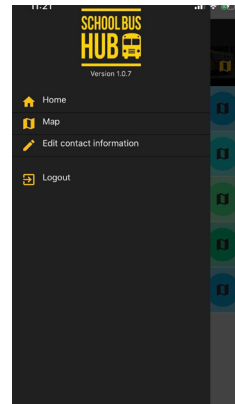

1.

Parent enters School Code, Student ID and Student Date of Birth to register.

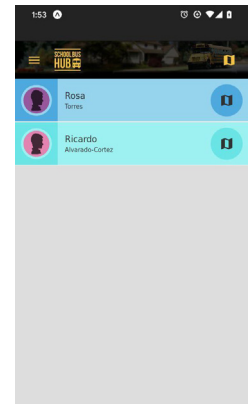

2.

Parent creates a User Profile and enters additional information to complete registration.

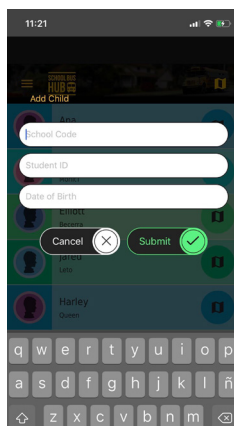

3.

Once registered, parent sees a card displaying the information about the registered child including student's name, school and ID.

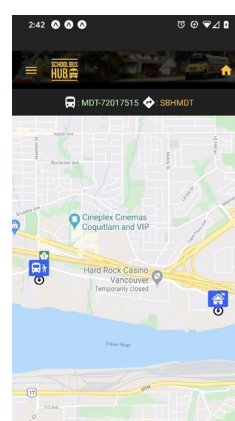

4.

Parents can add additional children to the account by entering their School Code, Student ID and Student Date of Birth.

5.

In map view, parents can see bus stops, current bus location, direction of bus travel and a "5 minute perimeter" boundary.

6.

Parents receive a registration confirmation email when successfully registered. Every time the bus is about to arrive, they get an "About to Arrive" notification by email or via push notification on the School Bus Hub Mobile Application. Parents receive a second notification "Bus Has Arrived" as the bus arrives at the stop to pick up or drop off the child.
